

CSI™ 2

Change Style Indicator®
Second Edition

Sample Group Report

November 11, 2025

The Change Style Indicator® Second Edition (CSI™ 2) group report provides insight into the change style preferences of a team. It includes detailed information about the team's strengths and potential blind spots and provides practical tips for optimizing team dynamics and navigating change effectively.

Note: While the term "team" is used throughout this report for clarity and consistency, the insights apply equally to any group of individuals working together, whether as a formal team, cross-functional group, or cohort.

Group Report

Section 1: Overview of Team Profile

Team Name: Sample Group Report

Number of Team Members: 68

Team's Midpoint Score: 0 (Pragmatist)

Team Orientation: Pragmatist

This result means that most people on this team have a Pragmatist change style preference, often focusing on practical, results-oriented solutions that balance tradition and innovation.

Percentages of Each Change Style

Conserver
15%

Pragmatist
75%

Originator

Leading Through Change

- Balance stability and innovation, explaining the practical reasons for change.
- Provide tools and structure for adaptation, focusing on practical solutions.
- [REDACTED]
- [REDACTED]
- [REDACTED]

Teams work best when they recognize different approaches to change. Some teams prefer stability, some blend structure with new ideas, and others push for big changes. Recognizing these differences fosters collaboration, problem-solving, and effective decision-making. Every approach adds value, making change easier to manage.

Practical Tips for Pragmatist-Oriented Team Success

Driving Innovation

- Assess new ideas while considering practical constraints.
- [REDACTED]

Solving Problems Effectively

- Bridge the gap between Conservers (stability-focused) and Originators (change-driven).
- [REDACTED]

Navigating Change Style Preferences in Team Dynamics

- Conservers in the team are encouraged to speak up about the need for stability while remaining open to new possibilities.
- [REDACTED]
- [REDACTED]

Integrating Conservers and Originators in a Pragmatist-Oriented Team

- Tips for Conservers on the Team
 - Take part in planning efforts to bring structure and attention to detail.
 - [REDACTED]
 - [REDACTED]
- Tips for Originators on the Team
 - Make time to share bold, creative ideas with the team.
 - [REDACTED]
 - [REDACTED]

Working With Different Teams Across the Organization

- Take time to understand the working style of structured (Conserver-oriented) or visionary (Originator-oriented) teams, so you can adjust your approach and collaborate more effectively.
